

U.S. NUCLEAR REGULATORY COMMISSION

DIRECTIVE TRANSMITTAL

TN: DT-09-02

To: NRC Employees

Subject: Transmittal of Management Directive 1.1, "NRC Management Directives System"

Purpose: Directive Handbook 1.1 is being amended in response to Recommendation 1 of Office of the Inspector General's (OIG's) "Audit of NRC Controls Over the Process for Eliminating Management Directives" (OIG-08-A-14). The amendment includes an expanded description of the MD elimination process. Only pages 16-17b of the Handbook are affected by the "focused change."

Office and Division of Origin: Office of Administration
Division of Administrative Services

Volume: 1 Management Directives

ADM

NRC Management Directives System

Directive 1.1

Policy

(1.1-01)

It is the policy of the U.S. Nuclear Regulatory Commission to communicate to NRC employees the basic NRC policies, requirements, and procedures necessary for the agency to comply with Executive orders, pertinent laws, regulations, and the circulars and directives of other Federal agencies. NRC prepares and issues directives and handbooks, as well as revisions to these documents, to meet the requirement that all Federal agencies have an internal management directive system.

Objectives

(1.1-02)

To ensure that management directives—

- Effectively communicate policies, objectives, responsibilities, authorities, requirements, guidance, and information to NRC employees. (021)
- Properly and consistently reflect the decisions of the Commission and the Executive Director for Operations. (022)

Organizational Responsibilities and Delegations of Authority (1.1-03)

Chairman (031)

- Approves the creation, revision, or elimination of management directives for offices reporting directly to the Chairman. (a)
- With the concurrence of the Commission, approves the creation, revision, or elimination of all management directives that formulate significant agency policy. (b)
- Approves the creation, revision, or elimination of management directives for offices reporting directly to the Commission when the action relates to routine or administrative matters. (c)

The Commission (032)

- Approves the creation, revision, or elimination of management directives for offices reporting directly to the Commission, unless these actions are routine or administrative in nature. (a)
- Approves the creation, revision, or elimination of all management directives that formulate significant agency policy. (b)

Executive Director for Operations (EDO) (033)

- Approves the creation, revision, or elimination of management directives for offices reporting directly to the EDO. (a)

Organizational Responsibilities and Delegations of Authority

(1.1-03) (continued)

Executive Director for Operations (EDO)

(033) (continued)

- Approves management directives for offices reporting to the EDO involving policy matters that are consistent with previously established Commission guidance or practice and that do not require approval by the Chairman or the Commission. (b)
- Grants exceptions to or approves deviations from the provisions of the NRC Management Directives System, unless the exceptions or deviations raise significant policy issues. (c)

Chief Financial Officer (CFO)

(034)

Approves the creation, revision, or elimination of management directives for his or her office if those directives involve policy matters that are consistent with previously established Commission guidance or practice and that do not require approval by the Chairman or the Commission.

Deputy Director for Management Services (DEDM)

(035)

- Provides oversight of the NRC Management Directives System. (a)
- For offices reporting to the EDO, recommends to the EDO directives that should be created, revised, or eliminated. (b)

Organizational Responsibilities and Delegations of Authority

(1.1-03) (continued)

Director, Office of Administration (ADM)
(036)

- Develops and administers the NRC Management Directives System, including the issuance of policies and procedures, the provision of advice and guidance, and the review of its operation and effectiveness throughout NRC. (a)
- Approves for publication or revision certain management directives that incorporate requirements imposed on the NRC (see Part II(D)(5) of Handbook 1.1). (b)
- Approves the elimination of management directives under the purview of ADM, as described in Part II(D)(5) of Handbook 1.1.(c)

Office Directors and
Regional Administrators
(037)

- Ensure that pertinent NRC policies, requirements, procedures, and management information of continuing relevance to their program areas are incorporated into the NRC Management Directives System. (a)
- Incorporate Executive orders, pertinent laws, regulations, circulars, and directives of other Federal agencies into NRC management directives to the extent necessary to show clearly the requirements that are placed on NRC. (b)

Organizational Responsibilities and Delegations of Authority

(1.1-03) (continued)

Office Directors and Regional Administrators

(037) (continued)

- Following guidance in Part II of Handbook 1.1, prepare and obtain approval of management directives necessary to carry out assigned functions, ensure the accuracy and currency of the directives, and eliminate those that become obsolete. (c)

Director, Division of Administrative Services (DAS), ADM

(038)

- Reviews new or revised management directives submitted for issuance for their adherence to the policies and procedures contained in this directive, including use of the proper format and editorial standards. (a)
- Ensures that directives receive proper review through NRC Form 521, "Request for Publication or Elimination of an NRC Management Directive" (Exhibit 2 of Handbook 1.1). (b)

Applicability

(1.1-04)

The policy and guidance in this directive and handbook apply to all NRC employees.

Volume 1, Management Directives
NRC Management Directives System
Directive 1.1

Handbook
(1.1-05)

Handbook 1.1 contains guidelines for the preparation, revision, review and approval, distribution, control, filing, use, and elimination of management directives.

Effective Date
(1.1-06)

Management directives go into effect immediately upon their issuance. When a specific effective date is necessary because of a management determination or to satisfy a legal or administrative requirement, the effective date must be specified in the directive. When a directive is revised or eliminated, the approval date of the NRC Form 522, "Approval for Issuance or Elimination of an NRC Management Directive," becomes the effective date.

Part I

Structure of the NRC Management Directives System

Volumes (A)

The NRC Management Directives System is structured to cover broad, major NRC functions and programmatic responsibilities. As such, these functions and responsibilities may be under the purview of one or more organizational units at any particular time. Because these organizations are subject to change over time, the management directives system is divided into sequentially numbered volumes, each of which addresses a specific NRC function. These volumes are as follows: (1)

- Volume 1 Management Directives
- Volume 2 Information Technology
- Volume 3 Information Management
 - Part 1 Publications, Mail, and Information Disclosure
 - Part 2 Records Management
- Volume 4 Financial Management
- Volume 5 Governmental Relations and Public Affairs
- Volume 6 Internal Management
- Volume 7 Legal and Ethical Guidelines

Volumes (A) (continued)

- Volume 8 Licensee Oversight Programs
- Volume 9 NRC Organization and Functions
- Volume 10 Personnel Management
 - Part 1 Employment and Staffing
 - Part 2 Position Evaluation and Management, Pay Administration, and Leave
 - Part 3 Performance Appraisals, Awards, and Training
 - Part 4 Labor Relations, Discipline, Grievances, Appeals, RIFs
 - Part 5 Benefits, Health Services, and Employee Safety
 - Part 6 Senior Executive Service, Senior Level Positions, and Judges
 - Part 7 General Personnel Management Provisions
- Volume 11 Procurement
- Volume 12 Security
- Volume 13 Transportation, Facilities, and Property
- Volume 14 Travel

Volumes (A) (continued)

When more than one binder is needed to accommodate the functional area designated for that volume, each binder will carry the volume number and identify the subcategories within the principal functional area. For example, see the entries for Volumes 3 and 10 in the preceding list. (2)

Directives in Volume 9 contain statements of organization and functions of NRC offices and regions, and are a means by which the Chairman, the Commission, and the Executive Director for Operations may assign functions and delegate authority to office directors and regional administrators. (3)

Directives (B)

Directives specify policy, objectives, responsibilities, authorities, and other requirements in specific functional areas. They are formal issuances that guide, inform, and instruct NRC employees in the performance of their jobs and communicate policies to enable employees to work effectively within the agency, with other agencies, and with the public. (1)

Directives refer to the topic-specific issuances of the broad functions covered in each volume. They are numbered consecutively (2.1, 2.2, 2.3, etc.) within each volume in the order of original issuance, and they are usually accompanied by a handbook. (2)

Directives, at the time of initial conversion, will have the former manual chapter numbers given in parentheses after the management directive number for reference purposes. The former manual chapter numbers will be removed when the directive is revised and reissued. (3)

Handbooks (C)

Handbooks contain instructional material consisting of procedures, guides, standards, reporting requirements, exhibits, and identification of pertinent laws that require compliance with the policy stated in the directives. They should provide implementation guidance to employees throughout the NRC for the policy given in their associated directive. However, handbooks should not contain the extensive detail that is commonly found in specific desk procedures that apply only internally to a particular NRC organization. (1)

Handbooks may either be attached to their associated directive or issued separately, depending on their purpose, scope, and utility. They bear the same number and title as their associated directive. (2)

Revisions (D)

Revisions bear the number of the relevant directive and/or handbook. Each revision will be distributed with a transmittal sheet that contains a brief explanation of the change(s) to the directive. (1)

When a directive is eliminated, its number is reserved for future use. (See Part II(F) for further information about eliminating directives.) (2)

Part II

Preparing Directives in Functional Areas for Volumes 2 Through 8 and 10 Through 14

Directives (A)

Directives in Volumes 2 through 8 and 10 through 14 set forth policy, assign major responsibilities to agency officials, and provide the lines of authority and other requirements in specific NRC functional areas, not by NRC organization. (1)

Directives must be organized into identifiable sections and subsections in accordance with the following guidelines. When necessary, other sections may be added. Each section fulfills a specific purpose related to the directive and is uniquely identified for ease of cross-referencing. In numbering the sections in the directive, the directive number precedes each section number. For example, in Management Directive 1.1, Section 01 appears as follows:

<p>Policy (1.1—01)</p>

Subsections of Section 1.1-01 are numbered individually (011), (012) . . . (0110), (0111), and so forth. (2)

Directives are organized into the following sections: (3)

- **Policy**

(Section 01) (a)

This section contains a broad statement succinctly stating the agency's intent regarding the functional area covered by the

Directives (A) (continued)

directive and why it was issued. It also may indicate any portions of the functional area that the directive does not cover.

- **Objectives**

(Section 02) (b)

This section states the goals of the functional area that affect the policy.

- **Organizational Responsibilities and Delegations of Authority**

(Section 03) (c)

This section contains statements—(i)

- Reflecting delegations of authority to particular NRC officials to perform certain functions and exercise certain authorities (a)
- Describing the scope of responsibility assigned to specific NRC officials to fulfill major responsibilities (b)
- Describing how NRC officials exercise certain discretionary or legal authority (c)

This section also contains statements regarding those individuals to whom NRC officials delegate responsibilities in a functional area. They should appear in the following descending order. (ii)

- The authorities, if any, that the Chairman, the Commissioners, the Executive Director for Operations (EDO), or the Chief Financial Officer (CFO) reserve for themselves, including the delegation of those authorities (a)

Directives (A) (continued)

- The authorities of the office directors and the regional administrators who are affected, following, in most cases, the hierarchy as illustrated in the NRC organization charts and functional descriptions (*b*)
- The authorities of appropriate division directors who are functionally concerned (*c*)

This section may not discuss responsibilities and authorities below the division level unless the proposed entry, by virtue of the responsibility or other considerations, warrants its placement in the directive. (iii)

- **Applicability**

(Section 04) (d)

This section states to whom the directive and the handbook apply.

- **Handbook**

(Section 05) (e)

This section states what the handbook contains, such as procedures, guides, and standards.

- **Other Sections**

(Section 06)

The following two sections are examples of optional sections that might be included in a directive, a reference section being quite common. Any other directive sections deemed necessary must be numbered sequentially and inserted before the reference section, which must appear last.

Directives (A) (continued)

– **Definitions**

This section defines terms used in a special context in the directive or if their meaning would not otherwise be clear to all those who use the directive. For more than five definitions, a separate glossary should be prepared and included at the end of the handbook. (i)

– **References**

This section cites laws, regulations, Executive orders, Commission actions, delegations of authority, other NRC directives, directives of other Government agencies, and so forth, that impose requirements on NRC, are cross-referenced or addressed in the directive, or that otherwise pertain directly to the directive. (ii)

Handbooks (B)

Types (1)

Handbooks are either attached to their associated directive or are issued separately. Handbooks of continuing reference value that would be useful as a desktop manual may be issued separately, although they also must be located in the appropriate binder for that directive. In either case, a handbook must be paginated and contain a table of contents independent of the directive to which it pertains.

Format (2)

The handbook must be identified by title and number with its directive, as illustrated on the cover for this handbook. Handbooks are reference documents and should be organized and formatted to assist readers in quickly locating the information they need. While it is not mandatory that all handbooks follow a prescribed

Handbooks (B) (continued)

Format (2) (continued)

format, offices are strongly encouraged to follow the format and page design of this handbook as a useful model to achieve as much consistency as possible. An office proposing or requesting an alternative format for a handbook must consult with and obtain prior approval from the Chief, Rules and Directives Branch (RDB), Division of Administrative Services (DAS), Office of Administration (ADM). (a)

The handbook should be limited in coverage to information about its associated directive. (b)

The handbook should contain only those requirements or responsibilities that are broadly covered in its associated directive and should not be as detailed as a desk procedure. (c)

The handbook may contain useful finding aids, such as—(d)

- Visually discrete headings that accurately describe the contents of a section (i)
- The use of different typeface styles and sizes to help readers differentiate among levels of information (ii)

The handbook may contain exhibits. However, forms that have been placed on WordPerfect under the Informs icon will not be included as exhibits. The text should identify form type (e.g., Standard Form, NRC Form, or Optional Form), form number, and the title (only the first time the form is mentioned) and instruct the reader to access the form through the WordPerfect Informs icon. (e)

Review of Directives (C)

The review process for a directive and/or handbook provides an opportunity for all major components of the NRC to make substantive comments concerning the directive's content. A record of this review will be indicated on NRC Form 521, "Request for Publication or Elimination of an NRC Management Directive" (Exhibit 2), and in the originating office's comment and resolution summary.

The office director or the regional administrator responsible for initiating or revising a directive or handbook shall send a draft to RDB, DAS, ADM, for review and editing. The originating office must submit the following materials to RDB so that the directive can be reviewed and processed: (1)

- A typed, double-spaced copy of the directive and, when appropriate, the handbook, including an up-to-date original paper copy of any exhibits not available through the WordPerfect InForms icon. (a)
- A computer diskette of the text of the directive and the handbook in a WordPerfect file or an e-mail transmission of the document (b)

After its review, RDB will prepare the directive in the new format and return it to the originating office for its submittal to offices and regions for their review and comment. (2)

Routinely, draft directives are sent to all major NRC components, including the regional offices. If the directive does not require agencywide review, it should be sent to those offices or regions to which the directive assigns responsibilities or which are actually or potentially affected by the exercise of authority granted to the office issuing the directive. (3)

As a minimum, the Office of the General Counsel (OGC) and the Office of the Inspector General (OIG) must review each new or

Review of Directives (C) (continued)

revised directive before it is issued. The review of the directive by the OIG, however, does not constitute approval of the directive in cases of later audit or investigation. Other offices also may review the directive, as deemed appropriate by the issuing organization (see Exhibit 1). (4)

A draft of a new or revised directive or handbook need not be circulated for review to offices other than OIG, OGC, and ADM when it incorporates the following kinds of information: (5)

- Federal statutes, Executive orders, or NRC regulations (a)
- Regulations or directives of other Federal agencies to show any requirements placed on NRC (b)
- EDO, CFO, or Commission decisions for which no discretionary authority is granted (c)
- NRC reorganizational changes previously approved by the appropriate authority (d)
- Routine administrative changes (e)

The affected offices and regions have 20 working days to review and comment on draft and revised directives, although a shorter review period may be specified for brief revisions or for directives requiring expedited handling. The originating office may consider extending this comment period for draft directives that are unusually lengthy or complex. (6)

The originating office will incorporate comments of reviewers to the extent feasible. When significant, unresolved differences arise between the originating offices and offices reviewing a draft directive, the originating office shall submit a summary of the disputed issues to the EDO for resolution if the dispute involves an office or offices reporting to the EDO. When the dispute involves

Review of Directives (C) (continued)

offices reporting to the Commission, a summary of the disputed issue must be submitted to the Chairman for resolution. (7)

After obtaining the necessary reviews and comments, the originating office must submit to RDB a marked copy of the directive that reflects editorial and substantive comments. The originating office also must submit a completed NRC Form 521 (Exhibit 2), which provides the following information: (8)

- Originating division and office (a)
- Title and number of the directive (b)
- Basic authority for issuance or elimination (c)
- Type of issuance (d)
- Summary of the purpose and significance of the directive in 200 or fewer words (e)
- Attached summary of comments received and how the comments were resolved, except those comments that relate to editorial or format concerns (f)
- Recommended distribution, including numbers of copies for the originator and any other person specified, as well as mailing labels if applicable (g)
- List of offices to which the directive and/or handbook were sent for review (h)
- Staff contact for the directive (i)
- Signature of the office director recommending issuance or elimination of the directive and/or handbook (j)

Review of Directives (C) (continued)

- For directives and/or handbooks in Volume 9 of the NRC Management Directives System, the signatures of both the director of the affected office and the Director of the Office of Human Resources (k)

Approval of Directives (D)

The approval process for a directive and/or handbook has been kept to a minimum because of the extensive review process that occurs before the director of the originating office submits the directive and/or handbook for approval (see Exhibit 2). During the approval process, only a significant legal or policy issue should cause a change to the directive and/or handbook. If such a change is necessary, the directive and/or handbook will be returned to the staff contact of the originating office.

Director, Division of Administrative Services (DAS), Office of Administration (ADM) (1)

The director will review the proposed new or revised directive and/or handbook to ensure that they adhere to applicable policies and procedures, including the proper format and editorial standards. (a)

The following actions also must be accomplished: (b)

- Process the material and obtain the originating office's approval.
(i)
- Submit a copy of NRC Form 522, "Approval for Issuance or Elimination of an NRC Management Directive," and the processed copy of the directive and/or handbook to the appropriate approving officials. (ii)

Approval of Directives (D) (continued)

Chairman (2)

When the directive reflects a delegation of authority to an office reporting directly to the Chairman, such as the Offices of the Inspector General, the Chief Financial Officer, Public Affairs, and Congressional Affairs, or an office reporting to the Commission, the Chairman shall approve the directive.

The Commission (3)

When the directive reflects a significant delegation of authority to an office reporting to the Commission, or the directive raises significant policy issues, the Commission shall review the directive before it is submitted to the Chairman for approval.

Executive Director for Operations (EDO) (4)

The EDO shall approve all directives and/or handbooks except those specifically designated for approval by the Chairman or the Director of ADM.

Office of Administration (ADM) (5)

The Director of ADM may approve a directive and/or handbook for publication when it incorporates requirements imposed on the NRC by the following:

- Federal statutes, Executive orders, or NRC regulations (a)
- Regulations or directives of other Federal agencies to show any requirements placed on the NRC (b)
- EDO or Commission decisions for which no significant discretionary authority is granted with regard to implementation (c)

Approval of Directives (D) (continued)

Office of Administration (ADM) (5) (continued)

- NRC reorganizational changes previously approved by the appropriate authority (d)
- Routine administrative changes (e)
- Under limited circumstances, a specific part of a directive (such as Exhibit 3 of MD 3.57) (f)

Publication and Distribution of Directives and Handbooks (E)

At the time the EDO signs the NRC Form 522 approving a management directive, the EDO also will provide to the Commission for its information a copy of any management directive that contains policies or procedures that may affect the workings of the Commission. The memorandum that the EDO will sign transmitting the management directive to the Commission will be prepared by the Chief of RDB and will be included with any applicable management directive when it is submitted to the EDO for issuance. (1)

The Chief of RDB will submit approved management directives for publication to printing. (2)

The transmittal memorandum indicates the purpose of the issuance, the staff member to contact, and directions for retrieving a copy of the management directive. (3)

All directives and handbooks will be distributed to custodians designated by each office to maintain a complete, current set of directives and handbooks. Other copies will be distributed as recommended by the originating office and approved by the Chief of RDB. (4)

Volume 1, Management Directives
NRC Management Directives System
Handbook 1.1 Part II

Elimination of Directives and
Handbooks (F)

The originating office may request that an MD be eliminated. While the request for MD elimination is processed, the current MD remains in effect.

Step One: Submit Notice of Intent to Eliminate an MD (1)

The office director for the originating office must submit the following to OIG, OGC, ADM, and any other offices that would be affected by the elimination of the MD: (a)

- A memorandum explaining the reasons that the MD should be eliminated as well as the effects of the MD elimination and requesting comment on the proposed elimination. (i)
- A copy of the MD to be eliminated. (ii)

The offices will respond as follows: (b)

- OIG will review the request and may provide comment. (i)
- OGC will review the request and may provide comment and indicate any legal objection. (ii)
- ADM and any other offices affected by the proposed MD elimination will review the request, provide comment, and either concur or not concur. (iii)

Note: OIG and OGC must review the elimination proposal. If OIG, OGC, or ADM object to the elimination of the MD, then the MD may not be eliminated. However, if OIG, OGC, and ADM do not object to the elimination of the MD, then the originating office should follow steps two through seven. (c)

**Elimination of Directives and
Handbooks (F) (continued)**

Step Two: Create Comment Resolution Document (2)

The originating office resolves the comments received from ADM, OIG, OGC, and any other offices that would be affected by the elimination of the MD. Once all comments have been resolved, the originating office creates a comment resolution document. A comment resolution document provides the following information: the comments received, the office that submitted the comments, and the resolution of the comments. (a)

If comments or objections from ADM, OIG, or OGC are not resolved, then the originating office may not proceed with the MD elimination process. (b)

**Step Three: Submit MD Elimination Request to Rulemaking,
Directives and Editing Branch (RDEB) (3)**

The originating office submits the following to RDEB:

- A completed NRC Form 521 signed by the office director. (a)
- A copy of the MD to be eliminated. (b)
- The comment resolution document. (c)

**Step Four: RDEB Creates the Signature Package and
Forwards it to OIG, when requested, and OGC (4)**

RDEB creates the signature package, which includes NRC Form 522. After review by the Director of ADM, RDEB forwards the signature package.

- If OIG wishes to review the signature package, then RDEB will forward the signature package to OIG. If OIG receives the signature package, then it will review the documentation. (a)

Volume 1, Management Directives
NRC Management Directives System
Handbook 1.1 Part II

Elimination of Directives and
Handbooks (F) (continued)

- Review by OGC is mandatory. OGC will review the signature package and may or may not provide a legal objection. (b)

Step Five: If OGC Has No Legal Objection, OGC Forwards Signature Package to the Required Offices for Review (5)

If OGC has no legal objection to the elimination of the MD, then OGC signs the NRC Form 522 and forwards the package to the EDO, the CFO, or the Chairman, as appropriate.

Step Six: Final Approval (6)

Final approval of the request to eliminate an MD occurs when all necessary approving officials/offices have signed NRC Form 521 and NRC Form 522. The authority to eliminate an MD is non-delegable; therefore, all signature packages authorizing the elimination of an MD must be signed by the Chairman, the CFO, or the EDO, as appropriate.

Step Seven: RDEB Updates Web Sites to Reflect MD Elimination and Sends an NRC Announcement to Staff (7)

When NRC Form 522 has been approved, RDEB will mark the title of an eliminated MD as “ELIMINATED” on the agency’s internal and external Web sites. RDEB will withdraw the eliminated MD number and will not reuse it. RDEB will send an NRC Announcement to the staff, notifying them of the elimination of the MD. If replacement guidance is available, the NRC Announcement will so indicate.

Writing Guidelines (G)

Techniques (1)

Construct simple declarative sentences in the active voice as this sentence structure is the easiest to understand. Use action verbs in the present tense. Choose words carefully and ensure that they are familiar, concise, and used consistently. (a)

Terminology within a directive must be uniform so that users may readily understand the subject. Terms defined in the directive must be used consistently throughout the directive in which they are defined. (b)

When in doubt, the author should consult the technical editor in RDEB, DAS, ADM. Otherwise, following some simple guidelines should aid the author in creating or revising a management directive. (c)

Editorial Standards (2)

The standards for punctuation, abbreviations, spelling, capitalization, and so forth that govern the preferred style for directives are contained in the *U.S. Government Printing Office Style Manual*, the “NRC Editorial Style Guide” (NUREG-1379), and the “NRC Collection of Abbreviations” (NUREG-0544, Rev. 4). There are, of course, many other sources of good writing, such as Chicago University’s *A Manual of Style* and the Prentice-Hall Third Edition of *Words Into Type*, that may also provide guidance.

Part III
Preparing Directives on NRC Organization
and Functions in Volume 9

Directives on organization and functions issued in Volume 9 of the NRC Management Directives System are a means by which the Chairman, the Commission, and the Executive Director for Operations establish offices, divisions, and regional offices; assign functions; and delegate authority to the head of each organization.

Part IV

Maintenance and Use of the Directives System

Availability for Reference (A)

NRC Employees (1)

The NRC Management Directives System reflects NRC internal policy and overall instructions to the NRC staff. Thus, NRC offices and regions will maintain complete sets of directives. Other organizational components that have a need to refer to directives may maintain appropriate portions of the directives system. The Rules and Directives Branch (RDB), Division of Administrative Services (DAS), Office of Administration (ADM), maintains a permanent, up-to-date file of all directives and handbooks issued and revised. Directives and handbooks are also available from RDB on CD-ROM and on the NRC internal Website.

The Public (2)

The NRC Management Directives System is available to the public on CD-ROM and in the Commission's Public Document Room in accordance with 10 CFR Parts 1 and 9. These regulations implement the Freedom of Information Act (5 U.S.C. 552).

System Custodians (B)

Office directors and regional administrators will designate system custodians to ensure that complete sets of the directives are accurately maintained. The RDB must be notified of any reassignment or change in the status of system custodian within 2 weeks after reassignment. This step is necessary to keep the records of custodians current.

Filing (C)

The NRC Management Directives System is issued in looseleaf form to facilitate additions and revisions. System custodians must file new directives and revisions when the material is received so that users always have access to up-to-date information. (1)

Directives must be filed in official binders according to the volume, part, and individual directive number. Superseded or eliminated material must be removed and discarded. To maintain system integrity, RDB issues to system custodians the management directives system monthly update (MD/MU) that lists all management directive changes during that month. This MD/MU must be filed in Volume 1 of the Management Directives as a permanent record. (2)

Also, to maintain system integrity, RDB periodically reviews each official set of management directives to determine if it is up to date and to provide refresher training. RDB provides each system custodian with any missing or needed material. (3)

Provision of Binders (D)

DAS, ADM, will maintain a stock of binders for the system at the NRC warehouse. These binders are to be used only for NRC management directives. Access to the binders is strictly limited to the appointed system custodians and a small number of NRC employees whose official duties require their access to either full or partial sets. Any request for access to the binders must be addressed to the Chief of RDB and must provide a justification for access to the binders.

Notification of System Changes (E)

RDB issues a monthly notice to all system custodians that indicates the directives and/or handbooks that have been initially issued, revised, or eliminated during the previous month.

Part V Distribution and Stocking

Method of Distribution (A)

The Division of Administrative Services (DAS), Office of Administration (ADM), distributes directives to all system custodians maintaining complete sets or portions of the system, including the Public Document Room, the NRC Technical Training Center, and regional offices. (1)

Headquarters offices and regional offices may distribute directives of interest to their employees within their organizational units. (2)

At any time an employee may request a copy of a directive and/or handbook by contacting the Rules and Directives Branch, DAS, ADM. (3)

Establishment of Distribution Pattern (B)

Normally, NRC management directives and/or handbooks are sent to system custodians and any special distribution recommended by the staff contact.
