Dear Mr. Weber:

The U.S. Nuclear Regulatory Commission (NRC) notified USEC Inc. (USEC) via two e-mail communications that certain additional requirements were being imposed for U.S. Department of Energy (DOE) accreditation of classified cyber systems. As subsequently discussed with NRC staff, USEC was already aware of these requirements (Reference 1) and had engaged DOE directly in discussions. Accordingly, a plan was developed based on these discussions and submitted to the DOE on July 28, 2008. The July 28, 2008 letter is provided in Enclosure 1 for your information.

Enclosure 1 contains USEC letter from P.G. Sewell (USEC) to L.W. Clark (DOE) regarding DOE's May 27, 2008 letter requesting inclusion of additional requirements for cyber security plans.

USEC Proprietary Information, Official Use Only, and  
Security-Related Information – Withhold Under 10 CFR 2.390
