Subject: RE: data for 2/23/09 phone call

Eddie,

I have updated the EPM system to reflect the corrections that you identified in the "Public Report for Web Site". For RAI 339, I changed the "Question Type" from N/A to Std Design. I talked with Joe about the status and he feels it should be "Application Specific" for this particular RAI. On your latest copy of the report it reflects "Std Design." I will fix this before you receive next week's copy. Additionally, on the Public Report, there are several "Question Type" N/A's for Chapter 2 subsections. *Please review the subsections that are "N/A" and identify each one as "Application Specific" or "Std Design".*

Also, eventhough I have made all the corrections, pages 13 and 14 changes are not reflected in this report but will be included in next week's report. I had not completed these pages when Joe sent the report yesterday. Thanks.
