Dear Dr. O'Toole:

Enclosed is Amendment No. 24 to your NRC Material License No. 24-20274-01 in accordance with your request. Please note that the changes made to your license are printed in **bold** font.

Unless there is a prevailing need, it is not NRC's policy to add assistant Radiation Safety Officer's (RSO) to the license. You did not specify a prevailing need in your request. Further, for your information, to add Dr. Bergh as RSO, he would have to meet the requirements of 10 CFR 35.50 (c)(2).

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Sincerely,

A handwritten signature in cursive script that reads "Toye L. Simmons".
