**Security Facility Approval for Classified Work: Approval of Alliant Techsystems Inc/Allegany Ballistics Laboratory (ATK/ABL) Information Systems Security Plans - Official Use Only and Security-Related Information**

**INFORMATION TRANSMITTED HERewith IS PROTECTED FROM  
PUBLIC DISCLOSURE AS CLASSIFIED MATTER PROTECTION PLANS  
PURSUANT TO 10 CFR 2.390**

Dear Ms. Holahan:

USEC Inc. (USEC) hereby submits a request for U.S. Nuclear Regulatory Commission (NRC) approval of the Information Systems Security Plans (ISSPs) for the American Centrifuge Project at the ATK/ABL facility in West Virginia. The original ATK/ABL ISSPs were submitted for NRC's review in a previous transmittal (Reference 1). These ISSPs have been updated to reflect minor clarifications and changes as a result of USEC's and ATK/ABL's internal readiness review process, discussions during the NRC's site visit to the ATK/ABL facility in West Virginia on October 22-23, 2008, and NRC/U.S. Department of Energy (DOE) approval conditions (Reference 2). The portions revised since the original transmittal are indicated by change bars in the right margin.

This submittal satisfies the requirement for a Master ISSP discussed within Fluor's Security Program, Section 19.

Enclosure 1 to this letter contains the document entitled "Classified Distributed Information Network (CDIN) Plan, ACP-033" dated October 2008, for the American Centrifuge Project at the ATK/ABL facility in West Virginia, for NRC's review. Enclosure 2 to this letter contains the document entitled "Master Information Systems Security Plan (ISSP) for Stand-alone &
