Subject: Export application

EFM-09-0359

Dear Ms. Coates,

Please amend the Westinghouse application to export UO2 Powder to Nuclear Fuel Industries, Ltd. section 10b to read up to 0.8% rather than 0.799% to ensure that the section 10c calculation will be 2.8 Kgs U235, which is what we expect to export.

Best regards,

Edward F. McDonough
