Larry,

The subject document dated January 26, 2009 contains page changes to the license renewal application (LRA).

After reviewing the page changes, I noticed that the strikethrough version is dated February 23, 2004. However, the LRA that was submitted to the NRC with your November 27, 2007 letter is dated November 2007. Making the suggested page replacements would not appear to match with the November 2007 version of the LRA.

Maybe I am missing something. Would you clarify this for me?

Thank you.

Ron
