ATTN: Document Control Desk
Director
Office of Nuclear Material Safety and Safeguards
U.S. Nuclear Regulatory Commission
Washington, DC 20555-0001

Louisiana Energy Services, L.P.
National Enrichment Facility
NRC Docket No. 70-3103

Subject: Annual Effluent Monitoring Report

Pursuant to the requirements of 10 CFR 70.59, Louisiana Energy Services (LES) is to provide a Radiological Environmental Monitoring Report covering activities related to any release of radiological effluent during the second half of 2008.

As you are aware, LES is currently in a construction mode and the National Enrichment Facility is not yet operational. Consequently, there were no releases at LES over this period. LES is performing environmental monitoring at the present time to establish base line values for use in future comparisons with data obtained during operation of the NEF. This information is being maintained at the NEF site and is available for your review.

If you have any further questions, please contact Stephen Cowne, Director of Quality & Regulatory Affairs at 575-394-5253.

Respectfully,

A handwritten signature in black ink, appearing to read "Gregory OD Smith", is written over a horizontal line.

Gregory OD Smith
Chief Operating Officer and Chief Nuclear Officer
