Subject: USEC HQ ISSP Accepted for Review

On January 14, 2009, USEC Inc. (USEC) submitted (AET 09-0001), concerning a new Information System Security Plan (ISSP) for USEC Headquarters in Bethesda, Maryland. An acceptance review was performed by the U.S. Nuclear Regulatory Commission and U.S. Department of Energy staff and it was determined that the referenced information is acceptable for review.

The staff anticipates that a request for additional information will be sent in late February 2009 and for the review to be completed by June 2009.
