Lisle, Illinois 60532-4352

Re: NRC License 24-20091-01

Dear Mr. Null:

Amendment 20 of our license included the following 2 items:

- 10.B. Tests for leakage shall be performed only at temporary job sites of the licensee anywhere in the United States where the U. S. Nuclear Regulatory Commission maintains jurisdiction for regulating the use of licensed material. Analysis of leak test samples shall be performed only at the licensee's address specified in Condition 10.A.
- 10.C. Licensed material specified in items 7.A through 7.L and 7.P may be used at temporary job sites of the licensee anywhere in the United States where the U. S. Nuclear Regulatory Commission maintains jurisdiction for regulating the use of licensed material.

These 2 items were somehow "dropped" from Amendment 21. After phone conversations with both yourself and Ms. Brenda Brown in Washington, D. C., this appears to have been an oversight. It is not a change we asked for, to the best of my knowledge. We would like the 2 dropped items to be reinstated in a new issuance of amendment 21.

Additionally, item 7.A. is missing the "A" as amendment 21 now stands. And finally, since changes are necessitated, we would like to take this opportunity to change Condition 11 to include Robert Redmond for use of all material, therefore please change this item to read:

"Licensed material shall be used by, or under the supervision and in the physical presence of, Robert M. Wester, Kevin McCann, Kenneth Barnes, Robert Redmond, Kenneth Bachmann, or Tjaden Meyer."

If you have any questions or concerns, please feel free to contact me.

Thank you in advance for your consideration,
Sincerely,

Kevin McCann
