**Re: Production of Southern Nuclear's Nineteenth Supplemental Disclosures  
Docket No. 52-011-ESP**

Dear Mr. Moulding:

As you requested during our telephone conversation, enclosed is a CD containing the non-proprietary documents disclosed in Southern Nuclear's Nineteenth Supplemental Disclosures of December 3, 2008. Also enclosed is an attachment that includes updated document descriptions and the beginning and ending bates number references of the documents being provided.

As previously discussed, we have redacted out certain portions of some of the attached documents that we deemed either not relevant to the admitted contentions or subject to attorney-client/work product protections. To the extent any of the documents produced herein relate to attorney-client communications or related work product, the production of the attached documents shall not be deemed a waiver of any attorney-client/work product protections or the stipulations agreed to in the ASLB's April 3, 2007 order.

Based on further review, document SNC799 is not being produced because it is protected under the attorney work product protection and document SNC801 is not being produced because it is not related to an admitted contention.

If you have any questions regarding the enclosed documents, please contact me.

Sincerely,

K.C. Hairston
