SUBJECT: FOLA COAL COMPANY, LLC., LICENSE AMENDMENT, CONTROL
NO. 143272

Dear Mr. Richards:

This refers to your license amendment request dated January 28, 2009. Enclosed with this letter is the amended license. Pursuant to your request, we have authorized possession of TN Technologies devices on your license, however, the possession limit of cesium 137 remains unchanged. This requires you to ensure that the sealed sources in Ohmart Model SR-A are transferred to another authorized recipient **before** you acquire the TN Technologies Model 5201 gauge.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Medical, Academic, and Industrial Uses of Nuclear Material**; then **Regulations, Guidance, and Communications**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 7:00 a.m. to 6:30 p.m. EST, Monday through Friday (except Federal holidays).

J. Richards
