Greg,

I received this request (high-lighted) from Tony Nakanishi of the Reactor Systems Branch. Please have this reviewed and let me know if you have any questions.

Thanks

Kaly

Kaly,

I noticed that the licensee did not propose a TS LCO and a SR around Spent Fuel Storage (equivalent in intent to CEOG STS 3.7.18).

Please notify the licensee that these TSs should be included in the proposed license amendment.

Please call if you have any questions.

Gerry,

Not sure who's assigned to this LAR from TS, but I wanted to keep your team apprised as it concerns TS.

Thanks,

Tony
