Dear Mr. Durkin:

Enclosed is Amendment No. 06, amending your NRC Material License No. 21-32340-01 in accordance with your notification and request by facsimile letter dated December 1, 2008 and notification by letter dated December 16, 2008. The facsimile letter dated December 1, 2008, notified us and requested our consent to a proposed change of ownership/control associated with Non-Destructive Testing Group's (possessor of NRC License No. 21-32340-01) negotiations to sell 100% of it's stock to a US company (TUV Rheinland North America Holding, Inc., Newtown, CT) that is a subsidiary of a Western European parent company (TUV Rheinland, Cologne, Germany). Based on our review of the information provide, our consent was given by letter dated December 3, 2008. Your letter dated December 16, 2008, confirmed completion of the legal transaction on December 5, 2008. This amendment also places the possession limits on the license, as specified by you, for each radionuclide listed on the license, in accordance with our request that you provide this information. Please note that the changes made to your license are printed in **bold font**.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions. Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

NRC's Regulatory Issue Summary (RIS) 2005 31 provides criteria to identify security-related sensitive information and guidance for handling and marking of such documents. This ensures that potentially sensitive information is not made publicly available through ADAMS, the NRC's electronic document system. Pursuant to NRC's RIS 2005-31 and in accordance with 10 CFR 2.390, the enclosed license document is exempt from public disclosure because its disclosure to
