Docket No. 03014753
Mail Control No. 143274

Dear Mr. Law,

This is in reference to your letter dated January 26, 2009, requesting for amendment to Nuclear Regulatory Commission License No. 29-18266-01. In order to continue our review, we need the following additional information:

You have requested Dr. Kevin Bufalino to be and authorized user for oral administration of sodium iodide I-131 in quantities less than or equal to 33mCi. You submitted one of the experience attributes as required by 10 CFR 35.392 but none of the other requirements. It is recommended that you use NRC Form 313A(aut) [http://www.nrc.gov/reading-rm/doc-collections/forms/nrc313a\(aut\).pdf](http://www.nrc.gov/reading-rm/doc-collections/forms/nrc313a(aut).pdf) for documentation of Dr. Bufalino's training and experience along with the required attestation statement.

Please note that the Board Certification previously submitted for Dr. Bufalino is currently not recognized by the Nuclear Regulatory Commission because the words "AU eligible" is not written above the certificate seal. Please see <http://www.nrc.gov/materials/miau/med-use-toolkit/spec-board-cert.html> for acceptable board certifications.

Please note that you may not reply to this letter by return e-mail. Your reply must be in writing by letter or facsimile (610-337-5269). If we do not receive a reply from you within 30 calendar days from the date of this e-mail, we will assume that you do not wish to pursue your application.

We will continue our review upon receipt of this information. Please reply to my attention at the Region 1 Office and refer to Mail Control No. 143274. If you have technical questions regarding this letter, please call me at (610) 337-5366.
