Desc: Records of contamination remaining at the Industrial Reactor Laboratory site in Plainsboro, NJ. Former license # 29-03686-02 or 29-12944-01. Docket# 50-17. Request a diagram of the site with residually contaminated areas marked. Request nuclides and soil concentration data. There was a clean up performed at this site, but records indicate contaminated soil remained because it was too expensive to dispose of. Request the characterization data of the remaining contaminated areas, including raw laboratory data. Include any and all groundwater data as well.

FeeCategory: Educational

MediaType:

FeeCategory\_Description:

Expedite\_ImminentThreatText:

Expedite\_UrgencyToInform: on

Expedite\_UrgencyToInformText: A citizen who lives near the facility called our office when a web search revealed that contaminated material was left at the site and it was released for unrestricted use.

Waiver\_Purpose: Will inform the citizen of the results and what they mean.

Waiver\_ExtentToExtractAnalyze: The Department will compare the data to the current unrestricted release criteria of both the NRC and the Department.

Waiver\_SpecificActivityQuals: Staff at the DEP are health physicists with over 20 years of experience. The data will be analyzed to ensure that it is valid and then inform the citizen of our analysis.

Waiver\_ImpactPublicUnderstanding: Right now this citizen thinks that the cancer incidents in her neighborhood are due to the radioactive material at this site.

Waiver\_NatureOfPublic: One citizen called, but she has been talking to her neighborhood, so probably 20 or so individuals are interested in this information.

Waiver\_MeansOfDissemination: The Department will analyze the information, possibly do a site visit and take confirmatory samples, and then write a letter to the citizen with our analysis.

Waiver\_FreeToPublicOrFee: This information will be provided free of charge.

Waiver\_PrivateCommericalInterest: The Department is charged with protecting the public health and safety from unnecessary radiation. This information is needed so that we can make a determination as to whether this site is clean.
