Subject: RE: Offsite power update

Thanks for summarizing Amy. I think for Step 4 (communicate) I agree with Laura's comment at the meeting that this communication should be verbal, not with more RAIs. Most likely a meeting unless the remaining issues are so small a teleconference would suffice. I would really like everyone (staff and applicants) to come to complete agreement before more correspondence is issued.

Subject: Offsite power update
Importance: High

Following the DCWG discussion today on offsite power, Tom Bergman provided the following direction on GDC 2, 4 and 5. Jeff asked that I communicate to PMs and BCs in DNRL and DE. (BCs - Please forward to cognizant PMs and reviewers in your branches)

- (1) The staff will review relevant information in DC applications, COL applications and RAI responses
- (2) The staff will provide feedback on which existing RAIs can be closed based on this information
- (3) The staff will identify any specific additional information that is needed to support an SER with no open items
- (4) The staff will communicate the results of this review **and** any specific information requests in a meeting with the applicants (target one month)

In the interim, DRNL will not process the draft RAIs related to GDC 2, 4, and 5. Other electrical RAIs will continue to be processed.
