NOTICE OF REVISED TESTIMONY AND EXHIBIT

Southern Nuclear Operating Company hereby files a corrected version of the testimony of Messrs. Neubert, Scott and Smith concerning EC 6.0, submitted on January 9, 2009, as well as a corrected version of Exhibit SNC000005, also submitted on January 9, 2009.

First, in the testimony of Jeff Neubert, Bos Smith, and David Scott relative to EC 6.0, the following items have been corrected:

1. On page 1, Neubert's job title was changed from Acting Manager of Logistics for Nuclear Power Plants to Director of Logistics for Nuclear Power at Westinghouse.

2. On pages 7 and 8, the minimum depth used to identify potential dredging locations in the River Survey was changed from 5 feet to 6 feet. The witnesses have confirmed this by reviewing the depth of the potential dredging locations in the River Survey.

3. On page 8, the River Survey analysis has been changed to indicate an assumed barge length of 210 feet, not 220 feet.

Next, SNC000005, the Georgia Power Company Entrainment Report, has been corrected by changing the 95% Upper Confidence Level Limit based on Mean Half

Monthly-Rate from 315,641 to 568,154. This results in a corresponding change on page 23 of the Report. Also, the estimated daily entrainment rate on pages 23 and 25 has been changed from 1,302 to 1,230.

Respectfully submitted,

(Original signed by M. Stanford Blanton)
