Materials Licensing Branch Chief  
U.S. Nuclear Regulatory Commission  
Region III  
2443 Warrenville Road, Suite 210  
Lisle, Illinois 60532-4352

RE: Amendment of License: 21-01078-01

To Whom It May Concern:

Saint Mary's Health Care is requesting that the referenced Materials License be amended as follows:

Item 10

The areas of use and storage for the 200 Jefferson, S.E. location should have the old Nuclear Medicine department removed. The department has been moved to the area added in the previous amendment. The final wipe tests and area surveys have been conducted and document that no radioactivity or radiation readings greater than background levels are present. A diagram showing the area to be removed from our license is attached.

Please contact me if you have any questions about this amendment request.

Sincerely,

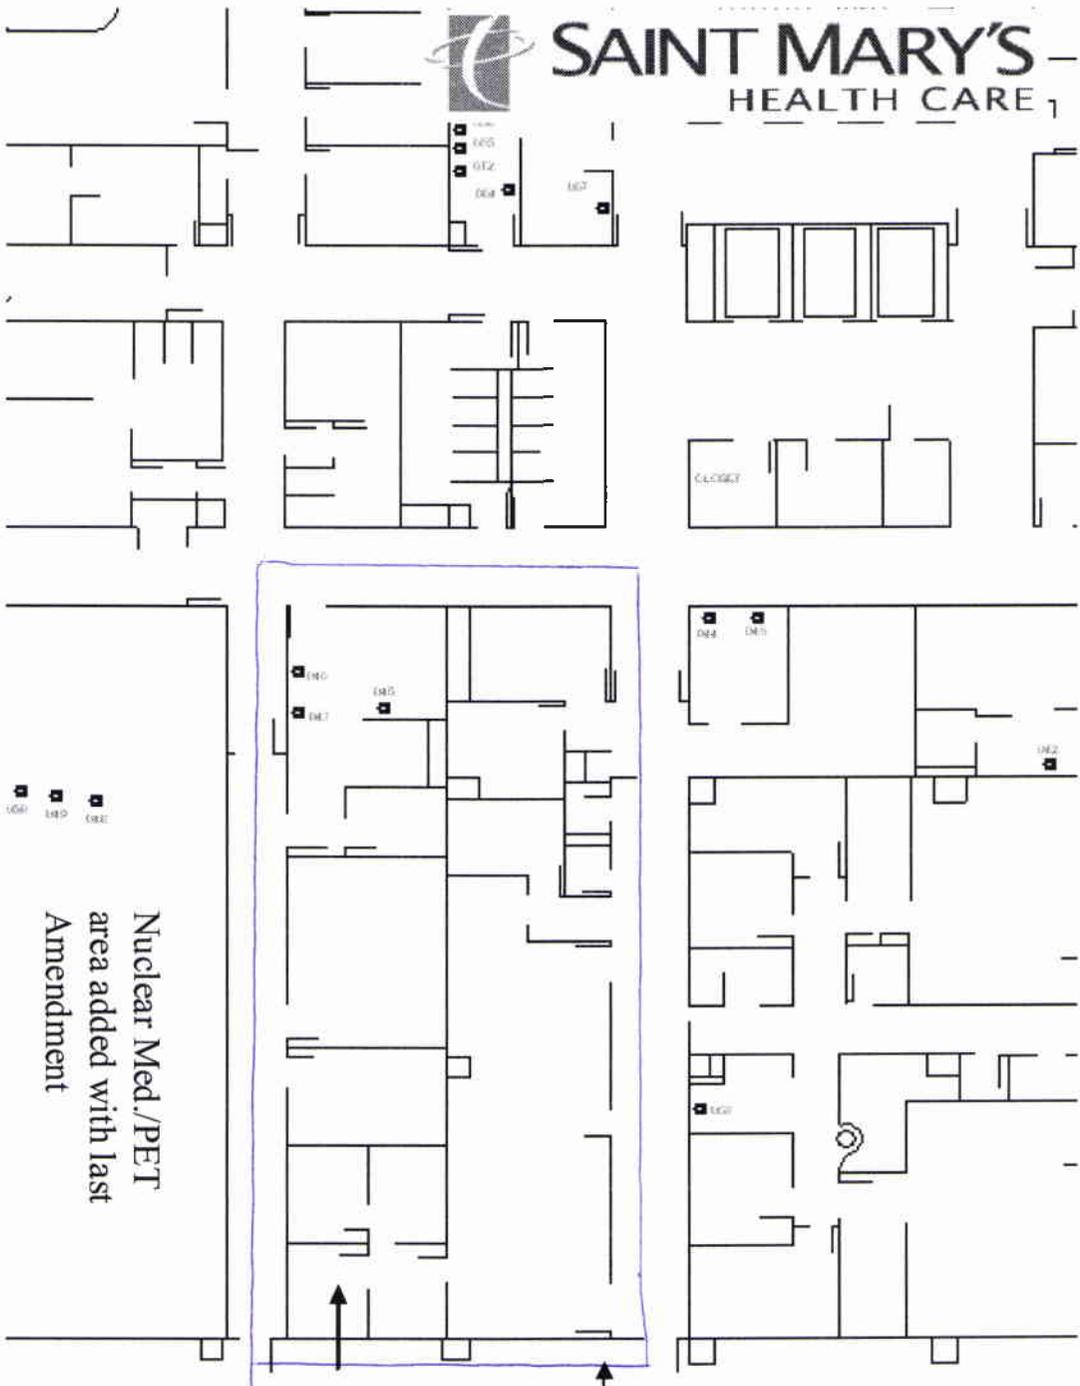

Dale Schippers  
Radiation Safety Officer

Earl Monks  
Director of Radiology
