Subject: Pending need for renewal of LN 29-00968-02

(NOTE: This will be used as the Documents Title in ADAMS)

I spoke with Mr. Hutton concerning the pending expiration of Alcan Packaging's license on March 31, 2009. Mr. Hutton stated that he was unaware of the upcoming expiration date and that a package was probably sitting on his desk awaiting review. The licensee does not intend to terminate its program and will be seeking renewal of the license. I stated that, technically, the regulations required the package to be sent in to the NRC by 30 days prior to the expiration date, i.e., March 1, 2009, but that the region would accept his package if it was sent in as quickly as possible. The package would need to be received in the region prior to March 31, 2009, Mr. Hutton stated that he would complete the package as quickly as possible.
