U.S. Nuclear Regulatory Commission  
11555 Rockville Pike  
Rockville, MD 20852-2738

Attention: Document Control Desk

Subject: Request for Timely Renewal of U.S. Nuclear Regulatory Commission (NRC)  
Certificate of Compliance (CoC) No. 9235  
Docket 71-9235

Reference: USNRC CoC No. 9235, Revision 9, Model No. NAC-STC Package,  
Dated April 25, 2006

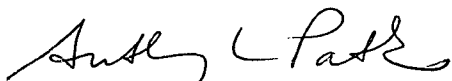

The above referenced CoC has an expiration date of March 31, 2009. NAC International (NAC) hereby requests the timely renewal of CoC No. 9235 for the Model No. NAC-STC Package [Package Identification Number USA/9235/B(U)F-96] in accordance with the provisions of 10 CFR 71.38.

Enclosed with this request for timely renewal are three (3) copies of the NAC-STC Safety Analysis Report (SAR), Revision 16, which incorporates supplements dated August 4, November 1, 2005, and March 1, 2006, listed in the CoC. NAC has reviewed the SAR to ensure that it is complete and current, specifically the sections on operating procedures, acceptance tests and maintenance programs.

For your information, NAC plans to submit an amendment to the NAC-STC SAR, Revision 16, in December 2009 to add the Dairyland Power Cooperative La Crosse Boiling Water Reactor spent fuel as approved contents. After NRC approval of this amendment request, the NAC-STC SAR will be consolidated and updated to Revision 17.

If you have any comments or questions, please contact me at (678) 328-1274.

Sincerely,

Anthony L. Patko  
Director, Licensing  
Engineering
