Mail Control No. 143276

Dear Dr. Roldan:

I am writing to further clarify my application dated January 26, 2009 requesting renewal of Regulatory Commission License No. 45-25458-01.

1. I confirm that the equipment used to measure dosages will be calibrated in accordance with nationally recognized standards or the manufacturer's instructions.
2. I confirm that I will either perform a prospective evaluation demonstrating that unmonitored individuals are not likely to receive, in one year, a radiation dose in excess of 10% of the allowable limits in 10 CFR Part 20 or that I will provide dosimetry that meets the requirements listed under "Criteria" in NUREG-1556, Vol. 9, Rev.2, "Consolidated Guidance About Materials Licenses: Program Specific Guidance About Medical Use Licensees," dated January 2008.
- ~~3. I confirm that I will develop, implement and maintain written procedures for area surveys in accordance with 10 CFR 20.1101 that meet the requirements of 10 CFR 20.1501 and 10 CFR 35.70.~~
4. I confirm that I will develop, implement and maintain written procedures for the safe use of unsealed byproduct materials that meet the requirements of 10 CFR 20.1101 and 20.1301.
5. I confirm that I will develop, implement and maintain written procedures for safe response

to spills of licensed material in accordance with 10 Part 20.1101.

6. I confirm that I will develop, implement and maintain written waste disposal procedures for licensed material in accordance with 10 CFR 20.1101, that also meet the requirements of the applicable section of Subpart k to 10 CFR Part 20 and 10 CFR 35.92.
7. I confirm that radiation monitoring instruments will be calibrated by a person qualified to perform survey meter calibrations
8. I confirm that I reserve the right to upgrade my survey instruments as necessary as long as they are adequate to measure the type and level of radiation for which they are used.

Sincerely,

Mark A. McClanahan MD, F.A.C.E
