Nuclear Power is still the folly it's been since it's inception.

Plants are expensive to build.

Plants and prohibitively expensive to decommission.

Nuclear requires huge and continuing security costs.

Nuclear is highly poisonous.

All nuclear plants release radioactivity into the atmosphere.

There is no solution to the waste storage problem.

Nuclear waste is a problem for hundreds of generations.

Wall street will not fund nuclear.

Wall street will not insure nuclear.

Machinery will fail, systems will fail, humans will error, there will be an accident.

Please do not permit this folly to continue,

Brian Rasche
