Steve Struck  
Radiation Safety Officer  
The Curators of the University of Missouri  
University of Missouri – St. Louis  
1 University Blvd. (102PTB)  
St. Louis, MO 63121-4400

Dear Mr. Struck:

Enclosed is Amendment No. 24 to your NRC Material License No. 24-00513-38 in accordance with your request dated February 10, 2009. Please note that the changes made to your license are printed in **bold** font.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

In accordance with our telephone conversation on March 2, 2009, your request to decommission several of your laboratories has been assigned to the Region III decommissioning branch. You may check with the decommissioning branch for periodic updates.

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions. Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document

system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Sincerely,

  
James R. Multauer, M.H.S.  
Health Physicist  
Materials Licensing Branch
