Re: ARMC, License No. 29-08622-04

Please amend 29-08622-04 to include licensure of our Cancer Center located at 2500 English Creek Avenue, Building 400, Egg Harbor Township, NJ, 08033.

This site will do PET imaging only. The purpose of the amendment is to allow the use of Cs 137 for calibration and constancy measurements of the dose calibrator and well counter.

There are no other licensed activities taking place at this facility.

The radiation safety program at the new facility will be consistent with the program currently outlined under our existing license (29-08622-04).

An expeditious review and approval of this amendment will be greatly appreciated as equipment delivery is pending.

If there are any questions please contact Jonathan Law (609) 652-3409.

Sincerely,

David Tilton
President and CEO
