Subject: question: time frame for Summer responses to geotechnical questions

Amy,

I received the following question from Gerry Stirewalt:

Do we have a schedule from the applicant on when we might expect to receive their RAI responses? Currently we are scheduled to have prepared supplementary RAIs based on their responses by 20 April.

It is my understanding from talking to Gerry that you have all of the questions in the 2.5 area. What the staff is interested in knowing is the timeframe for your response to these questions. Specifically, the staff would like to know how much time they will have to review your responses prior to the site visit.

Any insights you can provide would be appreciated.

Thanks,

Joe Sebrosky
