**Re: Letter of Intent to Submit a License Amendment to Include the Lost Soldier Project Under the Lost Creek License
Docket 40-9068, TAC LU0142**

Dear Mr. Miller,

Ur-Energy USA Inc. submitted a Letter of Intent for the Lost Soldier Project on March 19, 2008 conveying our intent to submit the Lost Soldier License Application during December 2008. However, based on NRC's recent clarification regarding when a remote facility may be added to an existing license through an amendment, Ur-Energy USA Inc., with this letter, is notifying the NRC of our intent to submit a license amendment to the Lost Creek Project, upon issuance, to include the Lost Soldier Project. Based on recent conversations with NRC personnel, we anticipate the Lost Creek License will be issued around October of 2009 barring any unexpected delays. The Lost Soldier amendment request will be submitted approximately one month later in November of 2009. The Lost Soldier Project is currently held by NFU Wyoming, LLC which, like Lost Creek ISR, LLC, is a 100% owned subsidiary of Ur-Energy USA Inc. The NRC Docket Number 40-9068 and Technical Assignment Control Number LU0142 were originally issued for both the Lost Creek and Lost Soldier Projects.

If you have any questions regarding this submittal or require additional information please don't hesitate to contact me at (307) 265-2373.
