Rockville, MD 20852-2738

SUBJECT: NuScale Power Incorporated Safeguards Information Control Program
Docket Number: 0769

Dear Mr. Zimmerman:

I am writing to inform you of NuScale Power Incorporated's ("NuScale") intent to establish and implement a Safeguards Information Control Program ("the Program"), pursuant to 10 CFR 73.21. The Program will establish the requirements and responsibilities for the protection, distribution, and control of nuclear Safeguards Information while in the custody of NuScale, and its contractors, subcontractors, and consultants.

NuScale engineers will require access to nuclear Safeguards Information in order to design the physical protection systems and other features of the NuScale Power Plant to protect against radiological sabotage. The Program will enable authorized NuScale engineers to receive and access this data and other necessary Safeguards Information in their design of the NuScale Power Plant. Also, the Program will provide the basis for designating and protecting Safeguards Information that will be developed in the design of the NuScale Power Plant.

I have enclosed a copy of the NuScale procedure that outlines the Program for your review. We are available to discuss any questions you have with respect to our plans and look forward to meeting with you here at NuScale when you determine it is appropriate.

Sincerely,

A handwritten signature in black ink, appearing to read "Ross Snuggerud".

Ross Snuggerud,
Senior Operations Engineer

Enclosure: NP-DRM-DP-SGIN-003 Protection of Safeguards Information
cc with enclosure: Mr. Thomas J. Kenyon, Project Manager, US NRC
