**Subject:** RE: Fuel Meeting

Yes, I think Scott is the overlapee . He would like to attend both meetings . Thursday for ER and Friday for Fuel would be great.

**Subject:** RE: Fuel Meeting

Jim,

I have spoken with Jessie. She is aware of the date planned for the Fuel meeting (1/30) and will provide more detail on the specific dates of the ER audit when available. However, she believes that the only STP member that will have an overlap if the ER audit is the same day as our meeting is Scott Head. And, if this is the case, Scott will be attending most, if not all, of the Fuels meeting. Is this your understanding as well?

We are hoping that the schedules of both NRC and STP staff will allow these meeting to flow as you suggested (audit on Wed or Thurs and fuels meeting on Friday). I'll let you know as soon as I hear something from Jessie.

Thanks  
Tekia

Thanks for getting back to me. I hope your training went well. Could you touch base with Jessie Muir regarding an ER audit that is being rescheduled for the end of the same week? Our management would like to be able to attend both meetings. The ER audit was originally scheduled for the beginning of that same week but is being moved to later in the week. If later in the week could be Wednesday or Thursday instead of Friday, that would match up with the fuel meeting on the 30th. I'll touch base with you on Monday.

Thanks Jim..

I will prepare the meeting notice on Monday and it will be posted to the web thereafter. I will however, provide you with a draft of the notice before formally submitting it to the NRC public website. Unless I get some objection from the staff on this end, the meeting will be scheduled for Friday, January 30, 2009.

Have a great weekend.

Tekia

Hi Tekia. In answer to your questions, WEC would like the entire meeting to be Proprietary since each of the eleven topical reports will be proprietary and there will be a lot of information that will be competitive. We were not planning on changing the agenda unless you need more detail. We will provide you non-proprietary overheads prior to the meeting. In answer to your question about attendees, WEC said that this will not be a detailed technical meeting. They thought the Branch Chief (and maybe a key reviewer) in each area would be appropriate. The plan is that this would be the first of a series of meetings with more technical detail later. Call me if you have any questions.
