Dear Sir or Madam:

Bloomington Hospital would like to amend its Byproduct Materials License, Number 13-10408-02, to delete the authorization for the use and possession of gadolinium-153 sealed sources (6.F.) for medical radiography in humans. We have properly disposed of our gadolinium-153 sources and do not anticipate attaining replacement sources in the future. In addition, we request that the use of gadolinium-153 for medical radiography be removed from those authorized users who were authorized for its use.

If there are any questions concerning this license amendment, please contact our nuclear medicine consultant, Mr. Patrick J. Byrne, D.A.B.R., C.H.P., at 877-317-5811.

Sincerely,

A handwritten signature in cursive script that reads "William Van de Riet, Ph.D." The signature is written in black ink and is positioned above the printed name and title.
