

March 23, 2009

Mr. Dealis W. Gwyn, Licensing Manager
Shaw AREVA MOX Services
P.O. Box 7097
Aiken, SC 29804-7097

SUBJECT: REQUEST FOR ADDITIONAL INFORMATION REGARDING THE REVIEW
OF THE INSTRUMENTATION AND CONTROL SECURITY ASPECTS OF THE
LICENSE APPLICATION FOR THE MIXED OXIDE FUEL FABRICATION
FACILITY LICENSE APPLICATION REQUEST

Dear Mr. Gwyn:

We have reviewed the instrumentation and control security information in your license application submittal, dated November 17, 2006, and the integrated safety analysis summary dated September 27, 2006, as revised on December 17, 2007. The submittal requests a license to possess and use special nuclear, source, and by-product material in the Mixed Oxide (MOX) Fuel Fabrication Facility (MFFF). The MFFF, which is to be located on the U.S. Department of Energy's (DOE's) Savannah River Site in Aiken, South Carolina, will process and fabricate MOX fuel for use in commercial nuclear power plants as part of DOE's plutonium disposition program.

We have enclosed a list of additional information that is needed by the staff in order to complete the review of the instrumentation and control security aspects of the MFFF. Please provide us with a response describing how our questions were addressed and any other changes to licensing documents that were necessary to incorporate the response. The response should be provided within 90 days of the date of this letter.

In accordance with the Title 10 *Code of Federal Regulations* 2.390, of the U. S. Nuclear Regulatory Commission's (NRC's) "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records component of NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

D. Gwyn
