Subject: East Tennessee Seismic Zone and Lee Site Hazard Curves

Project Number: 689

Dear Mr. Subbaratnam:

This letter transmits the data files for the East Tennessee Seismic Zone and Lee Site hazard curves which were discussed at the public meeting held on May 23rd. This data was used in the preparation of the EPRI white papers titled "White Paper on Seismic Hazard in the Eastern Tennessee Seismic Zone (ETSZ)" and "White Paper on Influence of Dames & Moore Interpretations for Seismic Hazard Studies in the Southeastern US" respectively. The data files from the Harris Site hazard curves used in the Dames and Moore white paper will be sent separately.

We appreciate your assistance and look forward to working toward resolution of these issues. If you have any questions, please contact me.

Sincerely,

Leslie Kass
Senior Project Manager
Nuclear Generation Division
