Good morning everybody,

This is to inform you that Adrian Heymer of NEI has informed by voice mail that the forth coming meeting will take place in the EPRI office in California (Palo Alto) instead of the ARES office in Santa Ana. I am letting him know that the choice of meeting place will not be a problem.

He also informed that a data disk (CD?) is being sent to us. Please let our consultants know and make arrangements for our attendance. Thank you very much,

Goutam Bagchi
