Dear Jenny Johansen,

I would like to add the following gauge to my license application. I have spoken to Maureen Miller and she told me to send the correspondence directly to you. I have included the mail control # so you are able to reference all information. I will be using the Instrotek 3500 explorer in addition to the original instruments submitted. If you have any questions concerning this matter please contact me. (862-432-6784) I have expressed my need to expedite this matter for my busy season starts April 1, 2009. Thank you for your cooperation with this matter.
