King of Prussia, Pennsylvania 19406-1415

Dear Sir or Madam:

03001317

Walter Reed Army Medical Center (WRAMC) uses radioactive material authorized by U.S. Nuclear Regulatory Commission (NRC) Byproduct Material License number 08-01738-02 with an expiration date of April 30, 2015.

We requested in May 2008 to amend NRC license 08-01738-02 issued to WRAMC to add an additional Model for sealed sources under Item 7.L for Gd-153. On amendment No. 82 Gd-153 is now on line K. Please add an additional Eckert & Ziegler Isotope Products Model HEGL-0133 (unless listing this 10 mCi source is not needed). We have also recently transferred our Americium-241 source to NSSI in Texas and would like to delete line N. from items 6,7. and 8.

We also request expedited processing and please FAX a copy of the approved amendment to (202) 356-0086. A new camera system is being installed and the source is part of that system.

For any additional information, please contact the undersigned at (202) 356-0058.

Sincerely,

Mark A. Melanson, Ph.D., CHP
Colonel, U.S. Army
Radiation Safety Officer
