Dear Mr. Sharkey:

Enclosed is Amendment No. 5 amending your NRC Material License No. 24-32439-01 in accordance with your request dated January 15, 2009, requesting the NRC approve the release of the facility located at 800 North Lindbergh Boulevard, Creve Coeur, MO for unrestricted use, and delete the facility from your license. Based on our review of the documentation you submitted in support of the request, we have determined that you have satisfactorily demonstrated that the Creve Coeur site facility does not contain residual radiological contamination in excess of NRC release limits. As a result, the facility can be released for unrestricted use.

The NRC staff prepared an Environmental Assessment (EA) and Finding of No Significant Impact (FONSI) regarding your proposed amendment to release the Creve Coeur site facility for unrestricted use. An announcement was made in the Federal Register dated March 12, 2009, related to the EA and FONSI.

NRC's Regulatory Issue Summary (RIS) 2005 31 provides criteria to identify security-related sensitive information and guidance for handling and marking of such documents. This ensures that potentially sensitive information is not made publicly available through ADAMS, the NRC's electronic document system. Pursuant to NRC's RIS 2005-31 and in accordance with 10 CFR 2.390, the enclosed license document is exempt from public disclosure because its disclosure to unauthorized individuals could present a security vulnerability. The RIS may be located on the NRC Web site at: <http://www.nrc.gov/reading-rm/doc-collections/gen-comm/reg-issues/2005/ri200531.pdf> and the link for frequently asked questions regarding protection of security related sensitive information may be located at: <http://www.nrc.gov/reading-rm/sensitive-info/faq.html>. A copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS).
