

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

April 13, 2009

Mr. Charles G. Pardee
President and Chief Nuclear Officer
Exelon Generation Company
4300 Winfield Road
Warrenville, IL 60555

SUBJECT: OYSTER CREEK NUCLEAR GENERATING STATION – CORRECTION
LETTER RE: LICENSE AMENDMENT TO DELETE TECHNICAL
SPECIFICATION SECTION 6.5, “REVIEW AND AUDIT” (TAC NO. MD7319)

Dear Mr. Pardee:

On February 24, 2009, the Nuclear Regulatory Commission (NRC) issued Amendment No. 273 to Facility Operating License No. DPR-16 for the Oyster Creek Nuclear Generating Station (Oyster Creek). This document is available in the Agencywide Documents Access and Management System (ADAMS) under Accession No. ML082890878. Enclosed in Amendment No. 273, were revised pages for incorporation into the Oyster Creek Technical Specifications.

The NRC staff has identified that, in error, page 3 of the license identified AmerGen as the licensee. The page should have identified Exelon Generation Company, LLC (Exelon) as the licensee consistent with the recent license transfer. Amendment No. 274 to Facility Operating License No. DPR-16 which was issued on March 23, 2009 (ADAMS Accession No. ML083500217) subsequently corrected this error because it affected the same page and correctly referenced Exelon as the licensee (thereby removing reference to AmerGen). Therefore, no additional action is necessary.

If you have any additional questions regarding this matter, I may be reached via telephone at (301) 415-2481.

Sincerely,

A handwritten signature in cursive script, appearing to read "G. Edward Miller".

G. Edward Miller, Project Manager
Plant Licensing Branch I-2
Division of Operating Reactor Licensing
Office of Nuclear Reactor Regulation
