**Subject:** RE: how many portable gauges do you have?

Ms. Modes,

We currently do not have any active projects and therefore have no gauges at the present time. We are expecting to start several projects in the upcoming year. I would like to have a five (5) gauge maximum limit associated with our license. Please advise if this is acceptable.

Thank you for your assistance.

-Mike

Dear Mr. Michael Kirk,

I left you a voice mail message inquiring as to the maximum number of Troxler 3440 portable density gauges you possess. I will incorporate this information into Column 8 of your licenses for maximum possession limit. I need this information to process your licenses (NRC and Virginia). Your quick response is much appreciated.

Thank you very much.
