John,

This email is to confirm Mr. Yox's discussion after the DCWG meeting. Today, after over two months of due diligence review, we have concluded that a potential change to the Calvert Cliffs Ultimate Heat Sink configuration is not viable. Accordingly, we are continuing with our focused efforts toward obtaining the FEIS and the COL as soon as possible - as these milestones are on our critical path. We are looking forward to preparing quality submittals, wrapping up our RAIs in a timely manner, and moving forward in the NRC review process.

If you have any questions, please contact me or Michael Yox, Director - Licensing, UniStar Nuclear Energy/Regulatory Affairs at 410 474-8587, or Dimitri Lutchenkov, Director, Environmental Affairs, UniStar Nuclear Energy/Regulatory Affairs at 410-470-5524.

Sincerely,

Greg Gibson
