Williamsburg, VA 23188

SUBJECT: ECS MID-ATLANTIC, LLC, LICENSE AMENDMENT, CONTROL NO. 143364,
AND NEW LICENSE, CONTROL NO. 143365

Dear Mr. Galli:

By letter dated November 25, 2008, we informed you of the impending Agreement between the U.S. Nuclear Regulatory Commission (NRC) and the Commonwealth of Virginia, whereby, the NRC will relinquish regulatory authority for certain licenses of byproduct, source, and special nuclear material. We also explained that your NRC license, which authorized licensed activities in Virginia and at temporary job sites anywhere in the United States where the NRC maintains jurisdiction (non-Agreement States), required an amendment prior to the transfer. This action is necessary since authorization to conduct licensed activities at temporary job sites in NRC-regulated states will no longer be valid once the Agreement is signed and Virginia assumes regulatory authority.

On January 27, 2009, Mr. Mark Schmidt of your organization informed the NRC that you wished to continue the use of licensed material in States that are under NRC jurisdiction. Therefore, your current NRC license has been amended to remove all Virginia locations of use and/or storage, leaving all other locations (including temporary job sites, if applicable) which authorize work activities in non-Agreement States. In addition, we have issued you a new license authorizing work activities only in the Commonwealth of Virginia. Enclosed with this letter are both licenses. Further, we have also amended both licenses to change the RSO to Ashley Brown as you requested in your March 5, 2009 letter and given you a possession limit for Cesium-137 and Americium-241 based on the number of gauges you possess as discussed with Ms. Brown during our telephone conversation on March 19, 2009.

Please review the enclosed documents carefully and be sure that you understand and fully implement all the conditions incorporated into the licenses. If there are any errors or questions on the NRC license, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers. Errors or questions on the license authorizing licensed activities in the Commonwealth should be directed to Michael Welling at the Virginia Department of Health, Division of Radiological Health at (804) 864-8151.

M. Galli

2

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Thank you for your cooperation.

Sincerely,
