Dear Mr. Lynch:

SUBJECT: Routine, unannounced inspection of Mid American Inspection Services, Inc. under Reciprocal Recognition of NRC License No. 21-26060-01

This letter is to inform you of the results of the unannounced routine inspection of Mid American Inspection Services, Inc. on March 11, 2009. Mid American Inspection Services, Inc. was conducting licensed operations at ANR Pipeline on Chalk Ridge Road, Fort Madison, Iowa under reciprocal recognition of NRC license number 21-26060-01. There were no violations of Iowa Department of Public Health (IDPH) requirements.

If you have any questions concerning this matter please do not hesitate to contact Nancy A. Farrington at (515) 281-0422 or me.

Sincerely,

Randal S. Dahlin

License No. 9179-1-00-IR1

Dear Mr. Wilkins:

This refers to the unannounced routine health, safety, and security inspection conducted by this office on March 11, 2009, of activities authorized by the State of Iowa under reciprocal recognition of NRC Radioactive Materials License No. 21-26060-01, and to the discussion of our findings with you at the conclusion of the inspection.

The inspection was an examination of activities conducted under your license as they relate to radiation safety, to compliance with the Iowa Department of Public Health (Agency) Rules, and with the conditions of your license. The inspection consisted of a selective examination of procedures and representative records, observations, independent measurements, and interviews with licensee personnel.

No violations of Agency requirements were identified during the course of this inspection.

Chapter 136C.10, The Iowa Code, authorizes the Agency to establish and collect fees for the issuance and amendment of licenses for radioactive materials and the periodic inspection of radioactive materials. This rule is implemented through the establishment of a fee schedule, in accordance with 641-38.8(136C).

Your attention is directed to 641-38.8(2)"b" which requires that after completion of an inspection, a fee shall be assessed to a facility based on the fee schedule found in 10 CFR 170.31 entitled "Schedule of Fees for Health and Safety, and Safeguards Inspections for Materials Licenses," issued by the US Nuclear Regulatory Commission (NRC). This NRC fee schedule has been incorporated in the enclosed "Radioactive Materials Fee Schedule."

Based on your license category and the enclosed schedule, you have been assessed a fee of \$3,500.00 for the inspection conducted on. The fee shall be paid within 30 days after receipt of this notification following the inspection and shall be made payable to the Iowa Department of Public Health.

The Iowa Department of Public Health will notify the NRC of the inspection results.
