**Subject:** RE: Fermi Transmission Line Site Audit

Jack-

Here is the list of ITC people that will likely attend the transmission line tour next Thursday. This is expected to be the final list but it may change depending on availability. I will let you know of any changes by COB Monday.

Erin Keeler (Tower Design Senior Engineer) – American Citizen  
Jim Smith (Veg. Management Maintenance Specialist) - American Citizen  
Roy Patterson (Field Supervisor) - American Citizen  
Jamie Kryscynski (Community Relations Specialist) - American Citizen and/or Mike McNulty (Supply Chain Environmental Manager) - American Citizen

Per Mr. LaGory's email, I will find out about the veg. management manual, and whether the key attendees can stay for a few hours in the afternoon on Thursday. Unfortunately these answers will have to wait until Monday, as this place clears out after 5 on Friday evenings.

Jeff

**Subject:** Fermi Transmission Line Site Audit

Jeff

As we discussed, the NRC will be conducting a site audit for the Fermi combined license application from February 2-6. As part of the site audit the staff will be touring the transmission line rights of way associated with the new unit should one be built. The application is located on the NRC website at <http://adamswebsearch2.nrc.gov/idmws/ViewDocByAccession.asp?AccessionNumber=ML082730660>

Specific information regarding the transmission lines is located at [http://adamswebsearch2.nrc.gov/idmws/doccontent.dll?library=PU\\_ADAMS^PBNTAD01&ID=082820202](http://adamswebsearch2.nrc.gov/idmws/doccontent.dll?library=PU_ADAMS^PBNTAD01&ID=082820202)

The staff tour of the transmission lines is scheduled for Thursday 2/5 at 8 am. We will meet at DTE headquarters at 8 am and leave from there to tour the transmission lines.

Your participation in the site audit is voluntary and the answering the attached information needs is the responsibility of DTE. Mr. Kirk LaGory from Argonne National Laboratory is a contractor working for the NRC and he will be contacting you to explain the audit in more detail. In addition to the NRC and its contractors, the US Army Corp of Engineers will be sending someone on the tour.

If you decide to participate, please email me the names of the participants if they are US citizens, and if they are not I need their date of birth. This is for DTE's security purposes. If they are not US citizens, please advise them to bring along two pieces of identification, one being their passport. Please respond to everyone on the email.
