To Whom It May Concern:

This pertains to our previous letter dated Feb. 23rd, 2009. The package which was lost has now been recovered. Town Air mistakenly delivered the package to the wrong recipient. The recipient noticed from the label what the contents were and called our phone number which was on the export paperwork. We sent a representative to retrieve the package. The package has now been sent on to its destination to our labs in Germany via Town Air and Held & Associates. Town Air has since instituted additional security & tracking procedures for our radioactive shipments and feel they have the problem corrected.

The licensed material was packaged in a fiber tube which was then placed in a UN 4GV specification cardboard box which was marked as "Radioactive Materials, Excepted Package" UN 2910, along with the export paperwork.

A copy of this letter was also faxed to (630) 515-1259.

Please write or call me at (816) 242-2138 (phone) or (816) 242-2000 (operator) or (816) 519-0611 (cell/voice or text message) if any further information is needed or email me at mark.moennig@bayercropscience.com.

Sincerely,

BAYER CROPSCIENCE

M.W. Moennig
