Subject: Export License Application - XSNM3579

Carlotta and Robin,

On Feb. 19, 2009 (DLN:09:013) Areva applied for an export license to send SNM to Japan. License number XSNM3579 and docket number 11005787 were assigned to the application. We have been advised of a change and would like to have the following incorporated into this application:

Block 11 did read, "Source Material Canada (100%), enriched in the U.S.", should read "Source Material Australia (100%), enriched in the U.S."

There is no Canadian feed material in this application, only Australian.

Let me know if you have any questions.

Thanks,

Dan Noss
