Biennial Report: Status of Decommissioning Funding

Pursuant to the requirements of Title 10 Code of Federal Regulations (CFR) 50.75(f)(1), this letter forwards the 2009 report on the status of decommissioning funding for Calvert Cliffs Nuclear Power Plant, R.E. Ginna Nuclear Power Plant, and Nine Mile Point Nuclear Station, which are owned by the Constellation Energy Nuclear Group, LLC. Title 10 CFR 50.75(f)(1) requires that each power reactor licensee report, on a calendar-year basis, to the U.S. Nuclear Regulatory Commission at least once every two years on the status of its decommissioning funding for each reactor or part of a reactor that it owns. This letter, and the associated attachment, satisfies that requirement for reporting the status of decommissioning liability and funding as of December 31, 2008.

The information required by 10 CFR 50.75(f)(1) is provided in Attachment (1). Please note the required information applicable to the Nine Mile Point Nuclear Power Station Unit 2 reactor includes summary statements provided by the 18% co-owner, Long Island Power Authority. Constellation Energy Nuclear Group has not independently verified information provided by this co-owner.

Should you have questions regarding the information in this submittal, please contact Mr. G. L. Detter at (410) 470-3781.

Very truly yours,
