Mr. Dennis R. Lawyer
U.S. Nuclear Regulatory Commission
Region 1
475 Allendale Road
King of Prussia, Pennsylvania 19406-1415

Re. Control No.: 142793

Dear Mr. Lawyer:

03005594

We have provided the following information to facilitate your efforts to amend our Nuclear Regulatory Commission license to a "Terminated" status for license number 32-00426-02.

In accordance with HPPOS-200, PDR-9111210337, Title: Authorizations Under 10 CFR 40.22, General License, memorandum from J. Hickey to files dated September 3, 1986, and 10 CFR 40.22 small quantities of source material, our facility incorrectly requested in 2007 that our license be amended to allow storage of 26 grams of Uranyl Acetate Non-volatile compounds and 26 grams of Uranyl Nitrate Non-volatile compounds to used at our facility under NRC license number 32-00426-02. The 26 grams did not meet the reporting trigger of 15 pounds of source material. Accordingly, we were not required to request an amendment nor to report the quantities.

Furthermore, we did not store any more than the 26 grams and were therefore exempt from reporting per the requirements of the references stated above.

All of the 26 grams of Uranyl Acetate Non-volatile compounds and 26 grams of Uranyl Nitrate Non-volatile compounds stored at our facility have been disposed of in accordance with standards and requirements of the Nuclear Regulatory Commission, the U. S. Environmental Protection Agency, and the Occupational Safety & Health Administration.

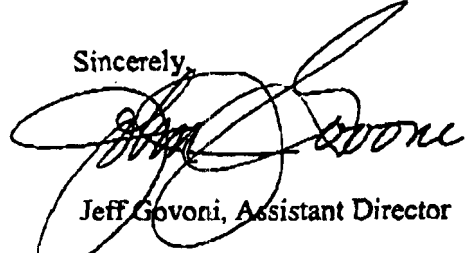

Finally, our Final Decommissioning Survey was within the area that our nuclear materials were used in.

143580
NUCLEAR REGULATORY COMMISSION
SEPARATED OUT OF 142793
