March 12, 2009

Chief
Rulensberg, Directives & Editing Branch

I write to support Riverkeeper's
environmental impact concerns and
opposition to the license renewal
of Indian Point:

- the slaughter of billions of fish
eggs and larvae;
- the killing of shortnose + Atlantic
sturgeon;
- the continuing leak of radioactive
water into the groundwater + Hudson R;
- the long term storage of tons of
toxic waste.

Thank you for your attention
to this request and, hopefully,
the decision to deny the license
renewal.

Sister Florence Mallon, S.C.
