Subject: Acceptance Review of USEC Inc. Request for NRC Consent to Transfer Control of Licenses (AET 09-0004)

Mr. Miner:

The NRC staff performed an acceptance review of USEC Inc.'s submittal (AET 09-0004) dated February 10, 2009, for the written consent to transfer control of materials licenses SNM-7004 and SNM-2011 (Lead Cascade Facility and American Centrifuge Plant, respectively) from USEC Inc. to the subsidiary limited liability company, American Centrifuge Operating, LLC.

The staff found your request acceptable for review. The TAC # for this licensing action is L32498. NRC staff expects to complete this action by August 24, 2009 (150 days).
