Re: NRC license 24-18968-01 amendment

Dear James:

1. In accordance with NRC regulation 35.14 (b), this is a notification that the following change to License No. 24-18968-01 has been made:

- Remove Ana C. Potero, MD from the AU list.
- Remove Thomas J. Pilla, MD from the AU list

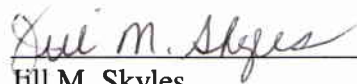

2. Under the provisions of the Energy Policy Act of 2005, since the NRC is assuming regulatory authority over all Radioactive Material, we would like to amend our current license to include all the Radioactive Material which was formerly regulated by the Missouri Radiation Control Program.

We have attached the current Registration of Radioactive Materials with the State of Missouri on 11/28/2006. We are currently not using in Palladium 103, and we will amend our license with Manufacturer and Model number of any Pd-103 sealed sources if we plan to use Pd-103 in the future.

The areas of use for all Radioactive Material will remain the same as in our current NRC license.

Please direct questions to Richard A. Keys, M.A. 314-791-9269 should you need further information regarding this amendment for NRC License No. 24-18968-01.

Sincerely,

Jill M. Skyles  
Vice President

Barnes Jewish St. Peters Hospital
