

March 30, 2009

Docket No. 04008610

License No. STC-1333

Mark D Stanek  
Plant Manager  
Stepan Company  
100 West Hunter Avenue  
Maywood, NJ 07607

SUBJECT: NRC INSPECTION REPORT NO. 04008610/2008001, STEPAN COMPANY

Dear Mr. Stanek:

This letter refers to your February 25, 2009, correspondence from your consultant, Conestoga-Rovers & Associates, in response to our February 9, 2009, letter. This letter also relates to the March 25 and 26, 2009, telephone conversations between Mark Roberts of my staff and your environmental consultant, John Garges of Conestoga-Rovers & Associates. Thank you for informing us of the actions proposed in your letter. However, because the cited violation relates to a condition of your license, your proposed action must be in the form of a request to amend your license. Your request should be submitted to the NRC's Office of Federal and State Materials and Environmental Management Programs (FSME) for action, because FSME is the NRC's licensing office for the Stepan Company license. We will continue to review the groundwater monitoring program during future inspections of your licensed program.

Your cooperation with us is appreciated.

Sincerely,

***Original signed by Randolph C. Ragland Jr.***
